Fifth District, St. 24, October 6, Giza, Egypt

"Web Developer and IT Lead with a Marketing-focused Business background. I bridge the gap between technical execution and strategic growth, building high-performance, scalable web solutions. Dedicated to delivering user-centric applications that align clean architecture with business objectives."

Work Experience

Head of IT Department
Sep 2025 - Sep 2026

Enactus CIC Student Activity | AL Shaikh Zayed

Led the development of the technical roadmap and system architecture for the organization's portal, ensuring scalability and performance. Expert at bridging social impact goals and technical execution, while mentoring junior developers and optimizing team workflows.

Frontend Developer
Sep 2024 - Sep 2025

Enactus CIC Student Activity | AL Shaikh Zayed

As a member of the IT department at Enactus CIC, I played a key role in the Frontend Development Team, focusing on creating a new responsive website. My responsibilities included utilizing HTML, CSS, and JavaScript,

Projects

Personal Portfolio
Aug 2025 - Sep 2025

"Web developer portfolio showcasing my expertise in ReactJS, Next.js, and Node.js. Dedicated to building clean, responsive, and user-friendly applications. Explore my featured projects and let's connect for collaborations or professional opportunities!" challenges.

Enactus CIC Zayed Portal
Nov 2025 - Dec 2025

An internal management platform streamlining student organizations via role-based access, task tracking, and performance evaluation. It boosts engagement through gamification and real-time notifications, ensuring operational efficiency, high security, and scalability for complex team structures."

AQAR - Real estate as E-commerce
Mar 2025 - Mar 2025

A responsive real estate platform developed with GDG. I developed the Apartments & Villas sections and implemented a robust filtering system, streamlining property discovery and enhancing the user experience through clean, structured, and visually appealing layouts.
